### **Carryover discussion:**

- We increased the overall Symposium budget to maintain the \$125,000 carryover we inherited this year. We don't necessarily need to maintain that level of carryover but it is ideal.
- If we can't raise \$145,000, we'll reduce the amount of carryover for next time rather than reducing the amount allocated toward enhancement funds.
- The minimum carry over we need to get the next Symposium running is \$75,000.

**Next call:** October 11, 1:00pm central.
