Press Release – Use between 9/5/17–11/13/17
This information is open to the public.

Online Submission of Poster Abstracts Is Now Open

Use this opportunity to share your integrated pest management (IPM) work. Submit a poster for the 9th International IPM Symposium that will be held March 19–22, 2018, in Baltimore, Maryland, USA.

Poster abstracts should be submitted online at <https://ipmsymposium.org/2018/posters.html> between September 5th and November 13th 2017 for full consideration. The abstract must contain an accurate summary of the work and be clear and concise. Instructions for abstract submissions can be found on the Poster web site.

Posters will be organized by division: Fruit, Nut and Orchard Crops; Rangeland, Livestock, and Pastures; Field Crops; Specialty Crops (Nursery, Greenhouse, Hydroponic, Landscape, Turf and Sod); Medical, Veterinary and Urban; Vegetable Crops; Other (Wildland and Natural Landscapes, Forestry, etc.); Cross-disciplinary (involving or relevant to two or more environments).

New this year is the Student Poster Awards category. Student project poster submissions will be entered into the IPM Inspiration Award competition.
