

MOSQUITO IDENTIFICATION

SPECIES

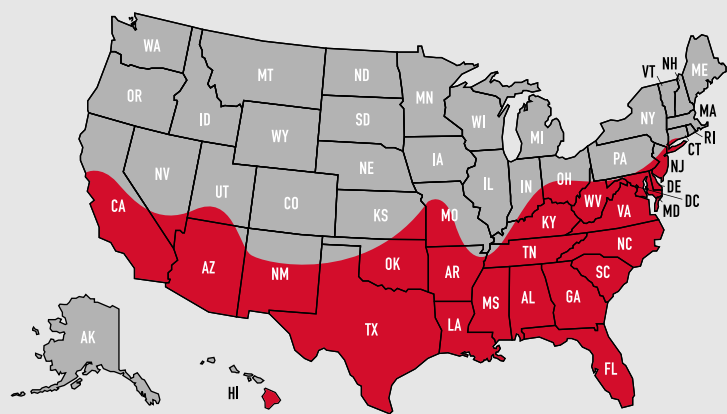

KNOWN or POSSIBLE DISTRIBUTION

TYPICAL BREEDING SITES

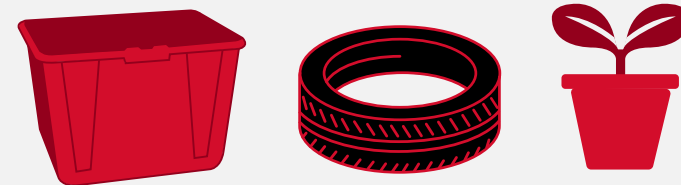

PUBLIC HEALTH IMPACT

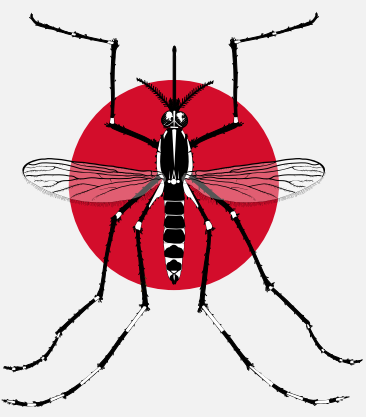

Aedes aegypti
Yellow fever mosquito

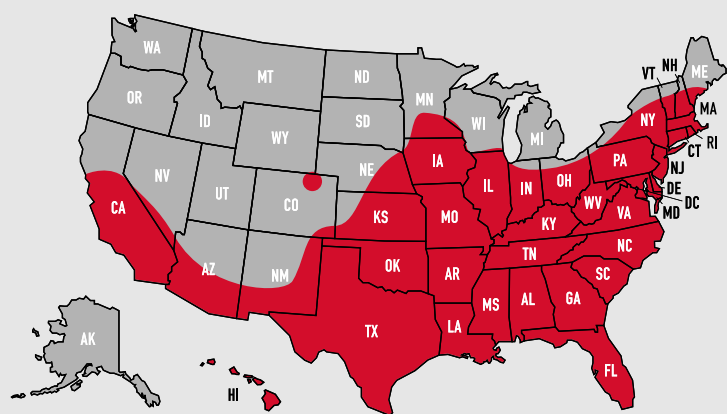

MAN-MADE CONTAINERS,
TIRES, FLOWER POTS,
DRAINAGE SAUCERS
AND CHILDREN'S TOYS

TRANSMITS
DENGUE,
ZIKA,
CHIKUNGUNYA
AND YELLOW FEVER

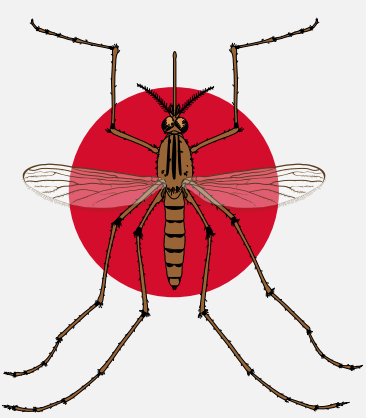

Aedes albopictus
Asian tiger mosquito

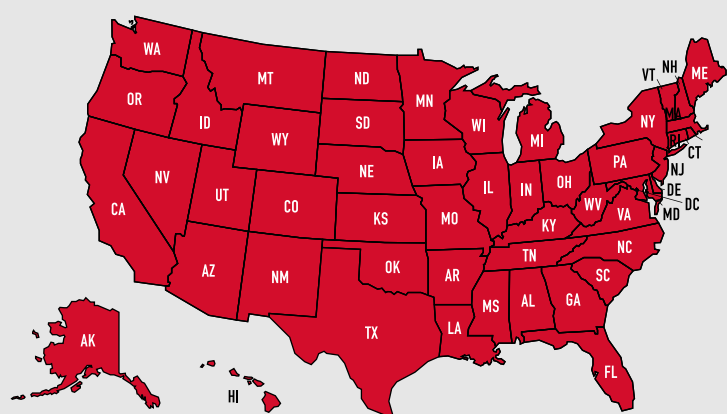

MAN-MADE CONTAINERS,
TIRES, BIRD BATHS
FLOWER POTS
AND DRAINAGE SAUCERS

AGGRESSIVE
DAYTIME BITER
TRANSMITS ZIKA,
DENGUE
AND CHIKUNGUNYA

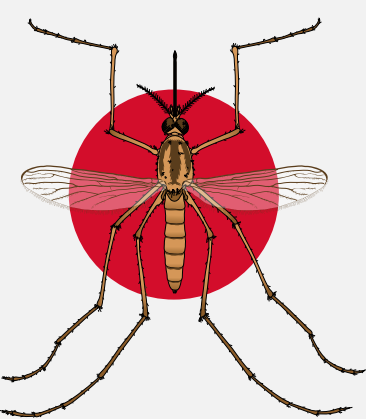

Aedes vexans
Inland floodwater mosquito

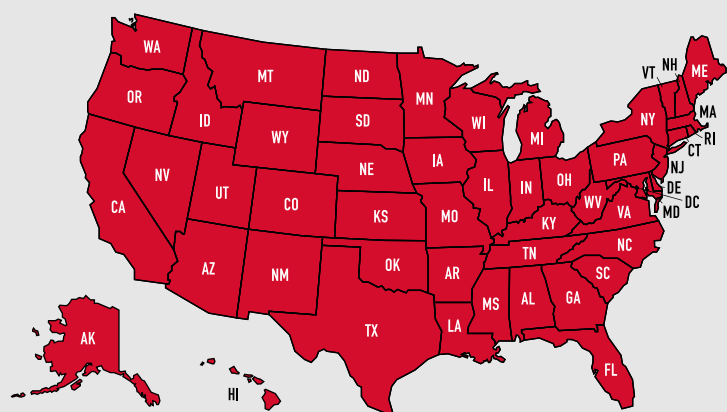

LAY EGGS ON MOIST SOIL
OF TEMPORARY AND
PERMANENT WATER BODIES

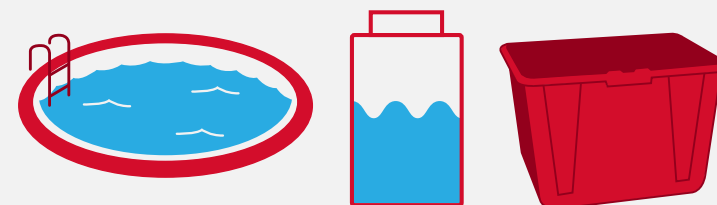

SEVERE
NUISANCE BITER
TRANSMITS
DOG HEARTWORM

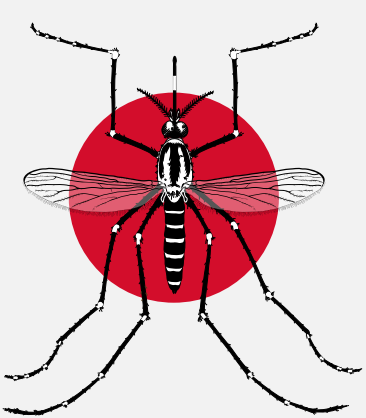

Culex pipiens
Northern/southern house mosquito

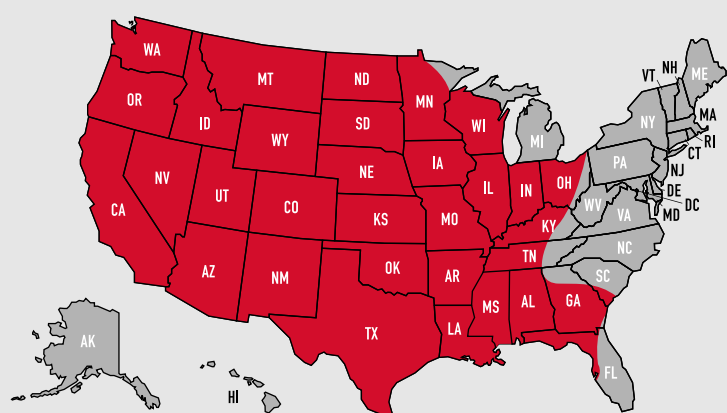

STAGNANT POOLS, CONTAINERS,
CATCH BASINS - PREFERS WATER
WITH HIGH ORGANIC MATTER

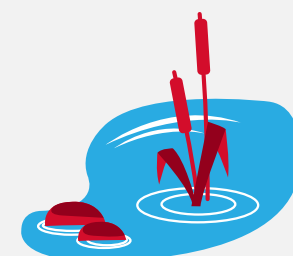

PRIMARY
VECTOR OF
WEST NILE VIRUS
AND ST. LOUIS
ENCEPHALITIS

Culex tarsalis
Western encephalitis mosquito

SWAMPS,
SEMI-PERMANENT WATER
AND IRRIGATION PONDS

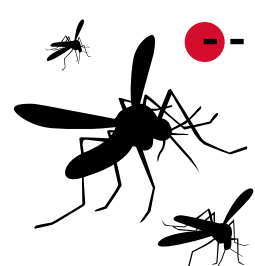

TRANSMITS
WESTERN
EQUINE ENCEPHALITIS,
ST. LOUIS ENCEPHALITIS
AND WEST NILE VIRUS

OVI-CATCH™

The OVI-CATCH™ is based on technology that was developed and tested in the performance of research conducted at the Centers for Disease Control and Prevention laboratory in Puerto Rico. It is a surveillance tool designed to catch female mosquitoes during the breeding cycle. Studies show that the AGO traps are effective in controlling mosquitoes, such as *Aedes aegypti* and *Aedes albopictus*, which are known carriers of chikungunya, dengue and Zika viruses.

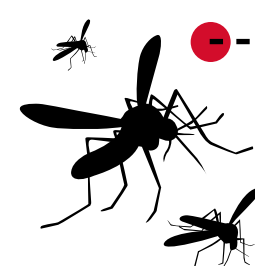

ELIMINATION of up to
1,000 MOSQUITOES
per female caught

Microencapsulated active ingredient
(garlic oil, 0.4%) first reduces mosquito
blood appetite and then kills the mosquito.

FINAL FEED™

FINAL FEED™ mosquito bait uses mosquitoes' appetites against them. Our proprietary, non-toxic formula includes natural fruit juices to bait hungry mosquitoes and deliver a lethal dose of microencapsulated garlic. The formula suppresses blood feeding, kills a majority within 1-2 days and collapses populations by over 90% in 2-3 weeks. Give mosquitoes their last meal with FINAL FEED™ mosquito bait.

KILLS majority within
1-2 days, collapses
population by over
90% in 2-3 weeks
